Transit Details

Journey from _____ to _____
Name of transporting carrier _____
Is there any water borne transport? **yes ~ no**
Will there be temporary unloading and re-loading during transit? **yes ~ no**
Is the building/s to be moved in parts or sections? **yes ~ no**
(State number of separate transits involved) _____
Terrain at place of departure level / sloping / steep / very steep
Terrain at place of destination level / sloping / steep / very steep
Anticipated date(s) of transit from _____ to _____
Consigned 'Terms of Carriage' (circle one) owners risk / limited carriers risk (LCR Terms) / declared value

Value for Insurance Cover

Please declare the following

\$ _____ Market Value being the value of the building(s) in an occupied state prior to transit, inclusive of GST
\$ _____ *Transportation / Lifting costs and the like
\$ _____ *Allowance for Architect / Professional fees
\$ _____ *Resource Management Act costs
\$ _____ **Total**
\$ _____ Government Valuation prior to transit

Note:

1. The costs and fees (marked with an *) outlined above are those that have been incurred and would be lost in the event of the building(s) being destroyed.
2. This is a transit cover only and applies strictly to the transport transit risk. To protect your interests you should arrange material damage insurance up to the time loading commences and after unloading at destination is completed.
3. For a claim to be accepted promptly by the insurer, the claimant should provide written evidence that the carrier has been instructed to conform to all traffic by-laws, rules and regulations and to check Road Code, weight and height restrictions prior to transit.
